

# SPRING 2024 SOLICITATION GUIDE

## Off-Road Equipment Replacement

Incentives to replace Tier 3 or older or diesel off-road equipment with Tier 4 Final or zero-emission equipment. Applies to existing diesel self-propelled equipment 25 HP or greater. Incentives will also fund new low-dust harvesting equipment that reduce particulate matter.

**Project examples:** Farm equipment, construction equipment, zero-emission UTVs, industrial equipment, low-dust harvesters, etc.

**\$1,500,000**

Available Funding

Eligible Programs:

Carl Moyer FARMER  
CAP Incentives TAG

## On-Road Vehicle Replacement

Incentives for the replacement of existing fleets with cleaner or zero-emission vehicles on-road. Yolo-Solano AQMD provides funding for qualifying school bus replacement projects within the District by AB 923 funding in addition to other available grants. On-road zero-emission vehicles located in disadvantaged communities can receive .

**Project examples:** Clean School Buses, shuttles, transit vehicles, refuse trucks, etc.

**\$500,000**

Available Funding

Eligible Programs:

Community Air Protection  
Carl Moyer

## Infrastructure

Incentives for EV charging infrastructure to support EV implementation. This includes installation of charging and fueling infrastructure and design and construction of pedestrian and bicycle facilities. Public education campaigns can be funded through Clean Air Funds.

**Project examples:** Electric vehicle charging equipment, hydrogen and natural gas fueling equipment, bicycle racks, pedestrian paths, etc.

**\$476,725**

Available Funding

Eligible Programs:

Community Air Protection  
Clean Air Funds  
Carl Moyer

## Agricultural Operations

This Program provides incentives to agricultural operations within the District boundaries to chip agricultural materials as an alternative to open burning. These incentives are aimed at reducing emissions and particulate matter. Funding for this pilot program includes local funds in addition to an award by the U.S. Environmental Protection Agency (EPA) 2021 Targeted Airshed Grant Program.

**Project examples:** Agricultural chipping

**\$600,725**

Available Funding

Eligible Programs:

Carl Moyer  
FARMER  
TAG

## Commercial Lawn & Garden

Incentives for businesses, organizations, and schools to reduce the cost of replacing existing gas- or diesel-powered lawn and garden equipment with battery-operated zero-emission lawn and garden equipment.

**Project examples:** Chainsaws, trimmers, brush cutters, leaf blowers, lawn mowers (walk-behind, ride-on), trimmers, etc.

**\$394,100**

Available Funding

Eligible Programs:

Carl Moyer
